

Colorado Springs Roofing Contractor Achieves Firestone Partner in Quality Award

Colorado Springs, Colo. – Firestone Building Products Company recently named Weathercraft Co. of Colorado Springs a recipient of the 2008 Partner in Quality Award. The award recognizes the company for its long standing commitment to installing quality roofing systems.

“The Partner in Quality Award distinguishes those contractors who continuously demonstrate a superior level of long-term roofing system performance and dedication to industry excellence,” said Michael Gorey, president of Firestone Building Products Company and chairman, CEO and president of Bridgestone Firestone Diversified Products. “Firestone congratulates Weathercraft Co. of Colorado Springs on their exceptional accomplishments.”

The Firestone Partner in Quality Award recognizes contractors who installed a minimum of four warranted Firestone roofs in each of the past five years, maintained at least one million square feet of Firestone roofs under warranty, and achieved an annual Quality Incidence Rating (QIR) of 2.0 or less. The Firestone QIR measures each contractor’s quality performance based on warranty repair incidences per million square feet under warranty.

For additional information regarding the roofing services provided by Weathercraft Co. of Colorado Springs, please contact John Fleming at 719-382-8511 or via e-mail at john@weathercraft.net.
